

Core 30x30 Indicators

Each organization will select 1-3 indicators from the relevant lists below (if possible), which will help create potential for common data across projects. The indicator list can adapt and change as 30x30 continues.

Table of Contents

Table of Contents	1
Access to Essential Medicines & Supplies Indicators	2
Community Services Indicators	2
Financing Indicators	2
Health Information Indicators	3
Health Workforce Indicators	3
Leadership and Governance Indicators	4
Service Delivery Indicators	4
Indicators References	5

Note: Indicators were updated between Rounds 4 and 5 in May 2023 to make them easier to aggregate and monitor over time.

Access to Essential Medicines & Supplies Indicators

Access to medicines and supplies - FBO Level

- Number of facilities having access to core set of relevant essential medicines
- Number or Percentage of facilities having essential drugs in-stock and nonexpired (e.g., antibiotics, anthelmintic, contraceptive methods)
- Number or Percentage of facilities having key supplies and equipment (e.g. gloves, syringes, bandages)
- Number of facilities having SOPs (standard operating procedures) for dispensing and counseling available
- Number of facilities having SOPs (standard operating procedures) for conducting procurement of equipment and pharmaceuticals, pre/post
- Number or Percentage of facilities with safe water, electricity
- Number or Percentage of facilities that maintain acceptable storage conditions (e.g. protection from theft, ventilation, temperature, and humidity)
- Number or Percentage of key personnel trained in drugs, supplies, and equipment stock management
- Number of staff trained equipment maintenance

Access to medicines and supplies - Health System

- Number of facilities that benefitted from medicines, technology, equipment, or training

Community Services Indicators

Community Services - FBO Level

- Number community health staff trained
- Number of community members served annually
- Number of distinct community-based health activities (e.g. NCD prevention, maternity care, child immunizations, nutrition promotion, etc.) conducted
- Number of home visits conducted
- Number of information, education, and communication campaigns launched

Community Services - Health System

- Number of churches or local church groups (e.g. small or cell groups) involved in health-related community activities

Financing Indicators

Financing Indicators - FBO Level

- Number of facilities achieving cost savings for the organization and/or for patients
- Financial health: Total revenue/Total costs
- Number of facilities with financial management systems, systems of accountancy, and regular auditing

- Number of individuals trained on financial management systems, systems of accountancy, and regular auditing
- Number of or percent of patient population covered by health insurance
- Number of facilities providing user fee exemptions and waivers
- Number of patients benefitted from user fee exemptions and waivers
- Percent increase of funds dedicated to infrastructure improvement

Financing Indicators - Health System

- Percent of facility spending for the lowest income quintile of the population
- For funders/technical agencies: Number of health facilities financially supported*

Health Information Indicators

Health Information - FBO Level

- Number of facilities using data to inform decision making
- Number of facilities with clear standards and guidelines for: 1) data collection, 2) reporting procedures methods, and 3) data analysis to be performed
- Number of facilities using data for planning, budgeting, or fundraising activities in the past year
- Number of individuals trained on the health information system

Health Information - Health System

- Number of facilities (e.g. public sector, other NGOs) that benefitted from information gathered by FBO (please provide examples of these benefits/partnerships)

Health Workforce Indicators

Health Workforce - FBO Level

- Number of trainings on completed annually
- Number of individuals trained annually
- Number or percentage of trainees that apply skills to current work
- Number or percentage of staff receiving training in key skill areas and having up-to-date skills
- Number of key positions filled
- Number of facilities with mechanisms to monitor and improve health worker performance, productivity, and expectations

Health Workforce - Health System

- Number of people trained, practicing in the region they were trained
- Number of doctors/nurses per bed

Leadership and Governance Indicators

Leadership and Governance - FBO Level

- Number of facilities with existence of key documents that are distributed regularly such as budget documents, annual performance reviews, and health indicators
- Number or percentage of facilities with written guidelines for accounting systems, asset management, human resources, proper reporting, pricing policies and exemption mechanisms, leadership accountability, and facility management
- Number of trained facilities with functional Boards and committees
- Number of facilities with written guidelines for the performance planning and review processes exist
- Number of facilities with an evaluation plan that is aligned with the goals of the annual operational plan
- Number of facilities receiving technical or consulting assistance to improve governance and management structures

Leadership and Governance - Health System

- Number (and scope) of partnerships established with local, regional, or national government
- Number of health facilities mapped at a local, regional, national, global level*

Service Delivery Indicators

Service Delivery - FBO Level

- Number of activities organized which address basic needs of vulnerable populations,
- Percent increase of care for [specific health outcomes, e.g. maternal care, screenings, vaccines, etc.]
- Number of patients treated [specific health outcomes, e.g. maternal care, screenings, vaccines, etc.]
- Number of patient home visits by health personnel
- Number or percentage of target population covered by the health intervention
- Number or percentage poor (lowest income quantile) utilizing health facilities/services
- Annual numbers of inpatients/outpatients treated
- Number of facilities with quality assurance system, accreditation, and/or processes that monitors the service quality of health care facilities

Service Delivery - Health System

- Percentage of population covered by health services
